

FATHER ALSO TO HAVE HIS DAY

Sunday, June 21, Proclaimed as Date by Originator of Idea

Spokane, Wash., May 22.—Sunday, June 21, has been proclaimed Father's day by Mrs. John Bruce Dodd of Spokane, who conceived the idea and originated the plan of paying tribute to fathers in all parts of the world one day each year.

Although Mrs. Dodd has received notice that a bill designed to set aside the first Sunday in June for this purpose has passed both houses of Congress, she states that until official announcement of the fact has been made by the government, the third Sunday in June will be observed as Father's day.

"Following the custom established four years ago, ministers in hundreds of American churches, and several in foreign countries, will devote their sermons to fathers on that day," states Mrs. Dodd. "Since the practice was started in Spokane, it is very fitting that the people of this city observe the day appropriately. The red rose is worn for the living, the white rose for the dead. A luncheon in honor of the day will be given by the city federation of women's clubs on Thursday, June 18.

"While I am credited with starting the Father's day movement, I can take no credit for the thought being original, for does not the second greatest commandment tell us to honor our father and thy mother? One day in 1905, and a Sabbath day at that, is not a gift to overwhelm, or make father feel unduly egotistic, although a Father's day critic has said, 'I will only wear the white rose for the father that is dead for he is the only truly good father.' Pathetic, isn't it? I would suggest that this young man specialize along the line of home missions lest the words like the father, like the son, reflect upon his brow." In 1909, Mrs. John Bruce Dodd crystallized her vision of a Father's day and in 1910 the Spokane Y. M. C. A. endorsed the day. Mayor N. S. Pratt of Spokane and Governor M. E. Hay gave their approval also.

When an epidemic of cholera is raging in the Philippines the authorities do not close the schools to avoid contagion. They keep them open as centers of hygienic information for preventing the spread of the disease.

Funston's Soldiers Guarding The Vera Cruz Waterworks

Photo copyright, 1914, by American Press Association.

THE waterworks at Vera Cruz are an important strategic point, and the Mexican troops have several times threatened the United States soldiers guarding them. General Maas is said to have mobilized several thousand federals for the purpose of attempting to retake the plant, which is located several miles from the heart of the city. The illustration was made by a photographer, who, at great risk, penetrated the fighting zone and snapped a group of Funston's soldiers in action and a piece of field artillery.

LOANS ON LIFE INSURANCE.

Growth of the Practice Is Attracting Increasing Attention.

The New York Journal of Commerce thus discusses an interesting subject: "A matter in financial circles that is attracting serious attention is the growth in loans on life insurance policies and in notes rendered in lieu of premiums. In its monthly letter the First National Bank of Boston presents a chart showing the development of the problem throughout the United States. The figures were recently compiled from the reports to the state insurance department of New York

covering all the companies doing business in this state, companies which do about 95 per cent of the life insurance business in the United States. The growth shown is steady, represents an increase of practically 100 per cent, in the decade cited, and the trend is in full and striking effect today. It is stated that only about 10 per cent of these loans are ever repaid. With upwards of \$50,000,000 of policy loans now outstanding, and increasing fast, American life insurance is the bank argues losing much of the substance. The practice of borrowing on insurance policies is one which is generally given greatest effect during depressions. The chart covers fourteen companies doing two-thirds of the business of the United States. New England appears to be the least offender, with the southwestern states the greatest. In New England where an increase of 16.74 per cent was shown, Vermont showed a 34.21 per cent increase; New Hampshire a 26.33 per cent increase; Rhode Island a 12.69 per cent increase; Connecticut a 11.96 per cent increase; Maine a 10.15 per cent increase, and Massachusetts a 7.11 per cent increase—the lowest of any state in the Union."

28 SEEK PAROLE.

Three Lives Among Those Who Seek Their Freedom.

Jackson, Mich., May 22.—Twenty-eight cases, three of them involving life sentences, confronted the state board of pardons and paroles, which began a special session at Jackson prison late Monday afternoon in an effort to clean up pending cases before the departure of the board chairman, Al. DeHull N. Travis, on a special mission for Gov. Ferris.

The life prisoners whose cases are to be heard at this session are Peter Hildinger, Livingston county, statutory offense, sent here May 4, 1906; Darwin Herrick, Shiawassee county, statutory offense, sent here March 29, 1902; and Richard Wyatt, Jackson county, assault with intent to murder, sent here Sept. 23, 1907.

The board will also consider the case of Frank Bieri, Jackson county, serving a 25 years' sentence for a statutory charge. The remainder of the class are those of short term prisoners. Bieri was sent to prison March 29, 1902.

RYAN KEEPS SILENCE TO SAVE AMERICANS.

Washington, D. C., May 22.—Dr. Edward R. Ryan, who as a representative of the American Red Cross society and of the state department, was thrown in jail in Fresnillo, Mexico, and subjected to such indignities and insults that his life was spared only on condition that he would not reveal his sufferings, was closeted on Monday with Secretary of State Bryan.

At the close of the conference Ryan said that Secretary Bryan had requested him not to divulge for publication the series of experiences that he had related to the secretary.

"I know other Americans in Mexico will be given the same alternative that I was—silence or death," he said, "and if I were to speak of the terrible ordeal I experienced I am afraid this choice would be taken from them."

DECLARES SLEEP LENGTHENS LIFE

Eight Hours Not Sufficient Says Noted German Authority

Berlin, May 22.—That sleep is the "key to the timepiece of life," the "greatest enemy of death," the most vital factor for long life, and that the sending of children to school at 7 and 8 a. m., as is done in Germany, is "barbarous" and a "massacre of life" are some of the statements made by Professor Carl Ludwig Schleich in an article printed this week in a local publication on "How to Prolong Our Life."

Professor Schleich is one of the most eminent surgeons and medical authorities in Germany and is also widely known in other countries. The local anesthetic which he discovered is used by surgeons and physicians for operations in every civilized land.

Optimism Necessary. Dwelling upon the necessity and regulation of optimism to longevity Professor Schleich quickly passes over the necessity of hygiene, moderation and temperance, and declares that the secret of long life lies in two things—elasticity of the veins and arteries and sleep.

"What can we do," he asks, "to protect our elastic, rubber-like cell tube system and prevent the loss of energy through what is known as 'calcification'?"

Cultivate Sleep. "I know nothing more important than gymnastics of the blood vessels of the skin—systematic turn exercises of the millions of little ringlet-like muscles of the blood vessels in the skin—and second—the art to sleep, developed to a tyrannical point.

"Everybody feels instinctively that sleep is the greatest physician for the suffering of the day. Sleep is not only the 'beautiful brother of death,' as the ancient Greeks characterized it, but is in fact the enemy of death.

Sleep Ten Hours. "Sleep quietly one-half of your life away! You will have twice as much of the other half! This is a maxim that ought to become a part of our flesh and blood. The oft-repeated, 'eight hours for work, eight hours for pleasure and eight hours for sleep' is unquestionably false.

"The civilized man or woman of today must learn to sleep at the very least, ten hours out of twenty-four if he or she expects to check the increased wear and irritability of his or her modern neurasthenic life and temperament. The extra two hours, I believe, should be taken from work time rather than from the hours for pleasure and recreation."

New York city has 82,015 regular municipal employees.

YALE ALUMNI GATHER.

Western Clubs Conducting Annual Reunion in Cincinnati Today. Cincinnati, O., May 22.—Cincinnati was very blue today, because the Western Associated Yale clubs are holding their eleventh annual reunion in this city, where the first Yale club was founded fifty years ago. The meeting will continue over tomorrow. Former President William H. Taft is scheduled to preside at the reunion banquet and several members of the Yale faculty and distinguished graduates of the New Haven institution will be among the speakers.

Last April's frosts in France affected the walnut crop.

FULTON

WIND, rain, or sun cannot penetrate the new extension Autohood in the Fulton Collapsible Go-Cart. Removable side curtains that fasten on quickly and special wind shielding curtain that drops from inside top are other reasons for the complete protection the Fulton offers. Upholstered in imitation black leather, this Go-Cart presents an unusually attractive appearance.

Padded seat, adjustable back and strong, resilient springs, make it one of the most comfortable and healthful of Go-carts. When not in use it folds up easily. Any one can do it. It is light to carry and convenient to handle.

It runs easily. Practically no effort is required to manipulate it. The Fulton collapsible has twelve-inch rubber tired wheels, foot brake, steel gear, rigid hollow steel tubing frame work and polished wooden handle. It is built for comfort and service.

Here Is the Fulton Guarantee

"WE AGREE with the purchaser of each Fulton Folding Go-cart to make good by repair or replacement, at any time, any part or parts that show defect in either material or workmanship provided such defect is not caused by misuse or neglect."

A copy of this warranty is furnished every purchaser of a Fulton Cart. What stronger evidence do you need of Fulton Quality?
